To understand how the internet works.

For this project you will be asked to create your own webpage to tell your favourite joke using words and pictures.

For this you will need:

- A computer
- Your favourite joke!

If you can't think of a joke try the following:

```
Knock, knock
Who's there?
Iva.
Iva who?
I've a sore hand from knocking!
```

In order to do this:

1) First you will need to visit: <u>https://projects.raspberrypi.org/en/projects/tell-a-story</u> - it should look like this:

| | B projects.naspberrypi.org/en/projects/tell-a-story TRS jr incurian CPONS | * 😰 \varTheta : |
|--------|--|--|
| Tell : | a story © ⊕ | |
| | Introduction | |
| 0 | What you will need | Interduction |
| þ | Decide on a story | Introduction |
| þ | Editing your story | In this project, you'll learn how to create your own webpage to tell a story, joke, or poem. |
| 0 | Challenge: make some changes | What you will make |
| 4 | Telling your story | Scroll down in the trinket to see the punch linel |
| 4 | Finding your own images | |
| 4 | Uploading images | Itrinket ▶ Run |
| 6 | Challenge: keep going! | A Joke |
| | Ť | |

2) Read through the instructions carefully and follow the instructions given – please note the page you are editing is on a different page to the one with the instructions.

| ≡ | Trinket C Autorun - Share - | |
|--|---|-------------------|
| < > | index.html style.css + 1 | Mrs Hatter's Joke |
| 1 + 2 + 4 3 + 4 5 6 7 + 9 10 + | Obab) Obab Obab | |
| 12 13 14 15 16 17 18 19 20 | Cang teres #titl_page's quotence Boock(/p) (/bito) (/bito) | Kreck Rock. |

3) To move through the instructions, you will need to click on the green button.

Project One: Computing

4) If you would like to share your finished webpage, please send a screenshot to the SFS email address – we would love to see your creativity!
