Geography - India

To research a contrasting locality to Farnham

This week, your task is to research (and use the knowledge you already have!) the area of Rajasthan in India. Things to research include:

- Houses
- Markets
- School life
- Weather
- Landscape (think about the different landscapes that we saw in the Thar desert and in Jodhpur)
- Food

Display your findings in any way that you would like to. This could be in a leaflet/booklet, as a PowerPoint presentation, a news report - be as creative as you can! Think carefully about comparing it to life in Farnham. You might also like to practise your Bhangra dancing!
