

History

To research a specific decade (1930-2020)

Your task is to create a fact-file which summarises, through informative and pictorial means, a particular decade in history between the 1930s and 2010s. Use whichever research mediums (internet, books, relatives etc) you have at your disposal to your advantage. It must include:

- An eye-catching title
- Fun facts
- Specific dates for events you have cited
- A 'Did you know...' box
- An entire side of A4/A3.

Be informative. Be bold. Be unique. Consider how to make your fact-file stand out from the rest of them. Focus on an area you are particularly enthusiastic about and indulge in your own history project.

Around this text are some examples you may take inspiration and some pictures to help with starting points.
