Addition and subtraction facts

- Know addition and subtraction facts within 10
- Find related addition and subtraction facts

$3 + 2 = \square$

$4 - 0 = \square$

$1 + 7 = \square$

$5 + 1 = \square$

$8 - 5 = \square$

$7 + 2 = \square$

$4 + 3 = \square$

$7 - 1 = \square$

$2 + 5 = \square$

$6 + 2 = \square$

$5 - 2 = \square$

$4 + 0 = \square$

$2 + 4 = \square$

$10 - 2 = \square$

$1 + 6 = \square$

$3 + 5 = \square$

$7 - 3 = \square$

$8 + 2 = \square$

$6 + 3 = \square$

$6 - 2 = \square$

$0 + 8 = \square$

$3 + 7 = \square$

$9 - 2 = \square$

$5 + 4 = \square$

What to do

- Ask your child to complete each addition and subtraction fact, using the owl number track to help them.
- There are two addition facts for 10 on the sheet: $3 + 7$ and $8 + 2$. Ask your child to write three more facts for 10 on the back of this sheet.

There are eight pairs of related addition and subtraction facts on the sheet. Here is one pair: $3 + 2 = 5$ and $5 - 2 = 3$. These two facts are related because they both include the same three digits: 2, 3 and 5. Help your child to find the others, circling each matching pair in the same colour.
