

Counting sets of more than 20

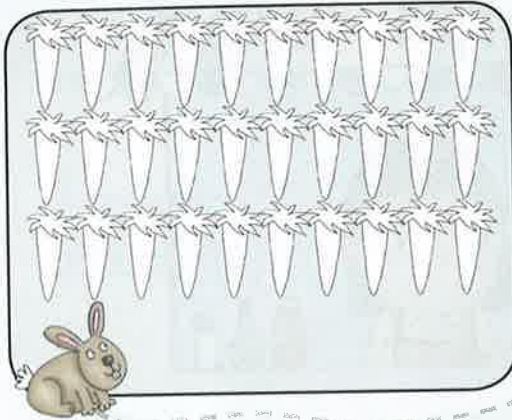

Practise counting sets of more than 20

Date: _____

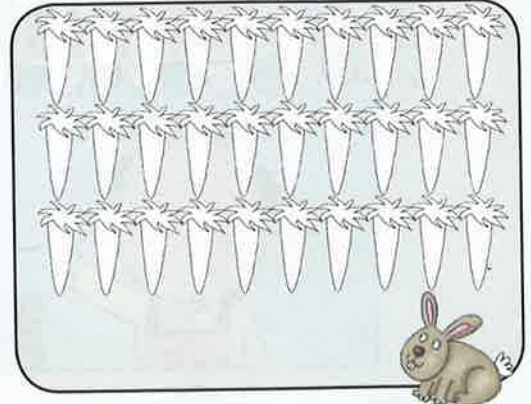

You will need:

- orange and green coloured pencils

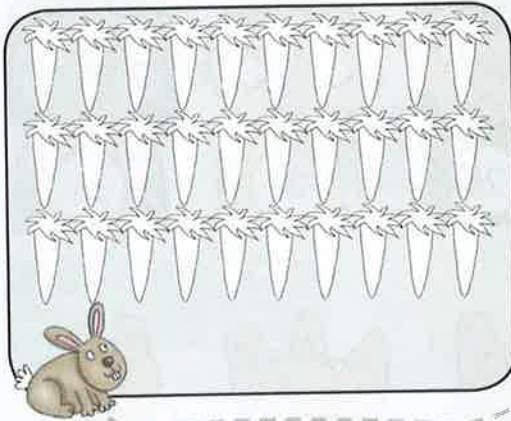

20

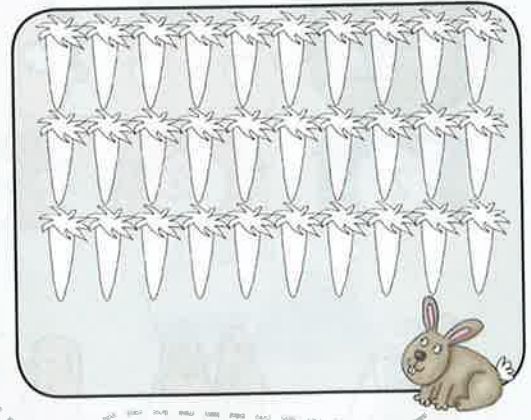

22

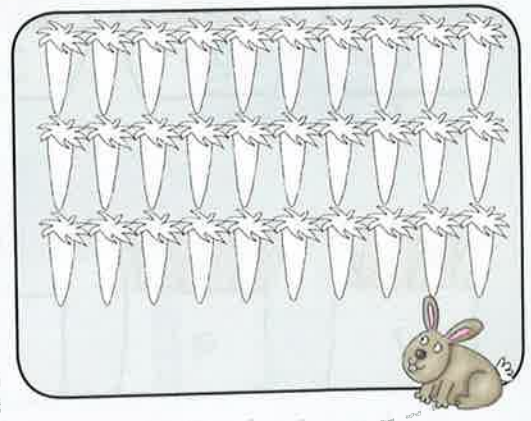

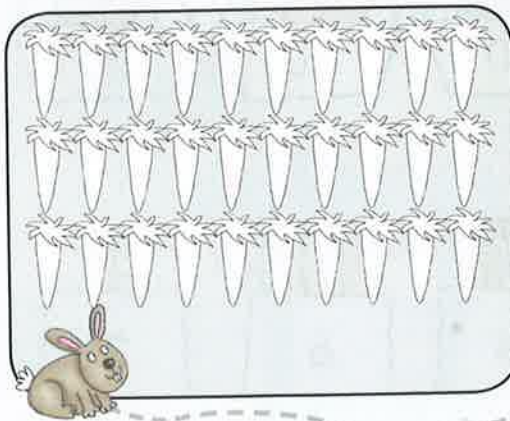

25

27

30

Teacher's notes

Children complete the number track from 20 to 30, writing the missing numbers into the spaces. They then follow each rabbit's track, to find out how many carrots they need to count and colour in that field.
