

Modern Toys

WALT – To know changes within living memory.

Look at your toys:

- What is it made of? – think about our materials in Science
- What does it look like?
- Who do you think would play with the toy? Why?

What is a **timeline**?

EVOLUTION OF THE MINIFIGURE

1978: The first minifigures, seven in total, are developed for the town, space and castle themes.

1978: The first female minifigure – a hospital nurse – is launched.

1989: Minifigures change their facial expressions so they can either be good or bad. The pirate figure with leg and hook is introduced.

1990: The ghost becomes the first specialised minifigure.

- A **timeline** is a way of displaying a list of events in chronological order (from earliest to latest).

Look at these pictures...

Who would play with
these toys?

A **baby**, a **toddler** or a **child**?

Why do you think that?

Your task

- ALL:** Draw and label a toy you played with as a baby, one from when you were a toddler and one toy you play with now.
- MOST:** Label the materials on your drawing.
- SOME:** List features of toy for that age.

Have we completed our tasks?

WALT – to describe modern toys and to be able to sequence modern toys.

WILF – to order toys depending on when we played with them.
