

Half full, twice as full

Measure and compare volumes

1 l

half the volume

twice the volume

2 l

half the volume

twice the volume

4 l

half the volume

twice the volume

800 ml

half the volume

twice the volume

600 ml

half the volume

twice the volume

1 l 400 ml

half the volume

twice the volume

Teacher's notes

For each measuring jug, children work out half the volume and twice the volume and write their answers in the spaces provided, including the units of measurement.
