

# Camping calculations

Recall the multiplication and division facts for the 5 times table

$6 \times 5 = \square$

$\square \div \square = \square$

$3 \times 5 = \square$

$\square \div \square = \square$

$9 \times 5 = \square$

$\square \div \square = \square$

$4 \times 5 = \square$

$\square \div \square = \square$

$12 \times 5 = \square$

$\square \div \square = \square$

### Teacher's notes

Children look at the multiplication calculation below each camper van and write the answer in the box. They then follow the trail that leads to a tent. They write a related division fact beneath the tent.
