

Castle problems

Date: _____

Solve addition and subtraction problems using mental and written methods

The castle has 19 red flags and 27 yellow flags.

How many flags are there in total?

67 people live in the castle. 24 of them go out for the day. How many people are still in the castle?

The castle has 36 windows and 41 arrow slits. How many windows and arrow slits are there altogether?

63 candles were burning in the castle. 25 of them went out. How many candles are still burning?

Teacher's notes

Children use a mental or written method to solve each word problem using the space at the bottom of each problem for any working out.
