

When you've finished, turn to page 80.

67 < > 73

What about like this?

81 > < 50

Or like this?

49 > < 42

What if the cards are arranged like this?

What if?

Check your numbers to make sure that they fit the statement.

There is more than one number: can you find all the possible numbers?

Think about ...

What numbers could you write on the red card? Write a rule for finding all the numbers that you could write on the red card.

34 > < 38
