

Date: _____

Time differences

Tell and write the time to 5 minutes

You will need:
• a small clock

$\frac{1}{4}$ past 10

20 minutes later

5 minutes later

55 minutes later

10 minutes later

25 minutes later

Teacher's notes

For each row of clocks, children think of a time. They write the time in the box and draw the hands on the first clock to match. They then read the label and draw the hands on the second clock to show the new time.
