They are a  and a .

Two yellow shapes are missing.

They are a  and a .

Two blue shapes are missing.

They are a  and a .

One orange shape is missing.

It is a .

---

After lots of searching, the missing shapes are found.  
Add them to the pictogram.

**Teacher's notes**

Each row should have six shapes in each colour – a circle, triangle, square, rectangle, pentagon and hexagon. Children use the information in the pictogram to identify the missing shapes and answer the questions.
