The chickens laid the most eggs on .

The chickens laid the fewest eggs on .

Teacher's notes

Children complete the pictogram on page 40 by drawing an egg or half an egg in each space. Each egg represents 2 eggs laid, with half an egg representing one egg laid. Children then complete the block diagram at the top of this page by colouring one square for 2 eggs or half a square for a single egg. The block diagram is already labelled in twos.
