Creature calculations

Solve multiplication and division problems

There are 2 tigers sitting in each tree. There are 3 trees. How many tigers are there?

☐ × ☐ = ☐

Each tiger has 2 cubs. How many tiger cubs are there altogether?

☐ × ☐ = ☐

There are 3 cactii. Each one has 10 prickly pears. How many pears altogether?

☐ × ☐ = ☐

5 bears eat all of the pears. How many did each bear eat?

☐ ÷ ☐ = ☐

There are 10 monkeys eating fruit. They eat 40 bananas. How many bananas does each monkey eat?

☐ ÷ ☐ = ☐

The monkeys climb 2 trees. How many monkeys are in each tree?

☐ ÷ ☐ = ☐

There are 6 trees. There are 2 birds in each tree. How many birds are there altogether?

☐ × ☐ = ☐

Each bird has laid 2 eggs. How many eggs are there altogether?

☐ × ☐ = ☐

Teacher's notes

Children look at the first part of each problem, and use multiplication or division to find the answer. Then for some of the problems they use the information from the first part of the problem to help to find the answer to the second part. They write both calculations in the spaces provided.
