Through the key hole?

Recognise a right angle

Date: _____

| Start				

 right angle turns

 right angle turns

 right angle turns

 right angle turns

Teacher's notes

At the top of the page, children look at the first key and decide whether each of the four keys beside it is now at right angles from their starting position. They put a tick or cross in the box to indicate 'yes' or 'no'. At the bottom of the page, for each pair of keys children write the number of right angles that the key has turned.
