

Fraction washing lines

Draw the fraction washing on the washing line in the correct place

Date: _____

You will need:
• coloured pencils

The washing lines are divided into sections by markers. The first line has markers at 0, 1, and 2. The second line has markers at 3, 4, and 5. The third line has markers at 6, 7, and 8. Clothes are hanging at various points along these lines, and boxes are provided for the student to write the corresponding fraction.

Teacher's notes

Children look at each piece of clothing on the washing lines and write down, as a fraction, how far along each piece of line the clothing is hanging.
