

# Bubble doubles

Solve number problems

$$\square + \square + \square = 15$$

$$\square + \square + \square = 17$$

$$\square + \square + \square = 15$$

$$\square + \square + \square = 17$$

$$\square + \square + \square = 16$$

$$\square + \square + \square = 18$$

$$\square + \square + \square = 16$$

$$\square + \square + \square = 18$$

### Teacher's notes

For each question, children write three numbers which, when added together, make 15, 16, 17 or 18. They can use the penguin number track to help them.
