# Animal facts

- Read the information on different animals in **RS** 'Animal data'. Put the name of each animal in the correct box of the Carroll diagram. Then use the Carroll diagram to help you to answer some questions.

- Read each statement. Circle true or false. Explain your answers:

Most of the animals that live in water are mammals. **True/False**

---

---

Few of the non-mammals live on land. **True/False**

---

---

There are more non-mammals than mammals. **True/False**

---

---

## Animal data

<b>Whale</b>	a mammal	<i>has live young</i>	lives in water
