Name: _____ Date: _____

Measuring time

Find the time taken to complete a task or event

Work in a group of about 3 or 4.

Complete this chart to record your times at each station.

Station	Estimated time	Measured time
1		
2		
3		

STATION 1

Estimate then measure the time it will take you to read aloud a verse from a poem.

You will need:
- copy of a verse from a poem
- stopwatch or timer

STATION 2

Estimate then measure how many seconds it will take you to build two tetrahedrons with interlocking tiles.

You will need:
- interlocking equilateral triangles
- stopwatch or seconds timer

STATION 3

Choose a length of time between 20 and 30 seconds.

21...
22...
23...

You will need:
- stopwatch or seconds timer

On your turn and without looking at the stopwatch, stop it when you estimate that you have reached your chosen length of time.
