# Make 900

Add 3-digit numbers using the formal written method of column addition

You will need:  
• 0-9 dice

- 1 Roll the dice and fill in the 100s, 10s and 1s digits in the calculations below. Think about how to make your target number of **900**. When the digits are filled in, work out the calculation. Are you near your target?

**a**

H	T	O
+		

**b**

H	T	O
+		

**c**

H	T	O
+		

**d**

H	T	O
+		

**e**

H	T	O
+		

**f**

H	T	O
+		

**g**

H	T	O
+		

**h**

H	T	O
+		

**i**

H	T	O
+		

**j**

H	T	O
+		

**k**

H	T	O
+		

**l**

H	T	O
+		

- 2 Which calculation is nearest to 900? How did you decide where to put the digits?
