

Name: _____

Date: _____

Greece in Europe

Using maps 1 and 2 and an atlas, answer these questions using your neatest handwriting.

1. Underline the correct answer:

- Greece lies in the **Northern Hemisphere/ Southern Hemisphere**
- Greece lies **above/below** the Equator
- The Tropic of Cancer/ the Tropic of Capricorn** is above the Equator

Greece is surrounded on three sides by water.

- Which sea lies to the east of Greece? _____
- Which sea lies to the west of Greece? _____
- Which sea lies to the south of Greece? _____
- What is the largest Greek island? _____

6. Most people fly for a holiday to Greece, but it is also a popular stopping place for cruise ships. Use map 1 to plot a route for a cruise ship from Southampton (south of London) to Athens.

Which countries *might* the ship stop at on the way?

7. Using an atlas, list the *capital cities* that the ship could stop at on the way.

Extension:

8. Over which countries would you fly if you travelled by air from London to Athens?

9. Which large mountain range would you see on your flight?
