

# litres of juice

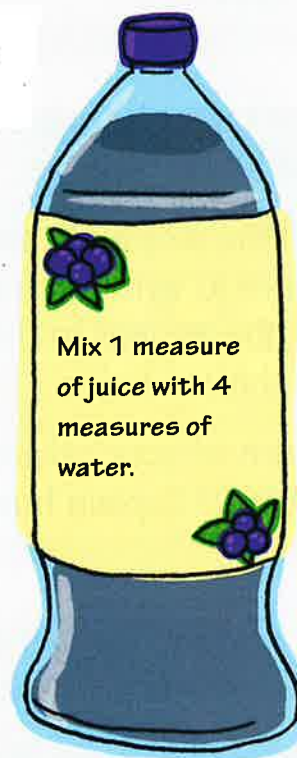

Calculate different measures of capacity using decimals to 2 places

Find the number of times you can fill the measuring jug from the bottle beside it.

Look at the instructions on the bottle of blackcurrant juice. Copy and complete the table.

Blackcurrant juice	Water	Amount of drink made
0.1 l	0.4 l	0.5 l
0.15 l		
0.25 l		
0.33 l		
	2 l	
0.67 l		
	3 l	
1.5 l		

The blackcurrant juice is also sold in 0.33 l cartons. How many litres are there in:

- a 1 pack of 6 cartons?
- b 10 packs of 6 cartons?
