

YOUR TASK THIS WEEK IS TO THINK ABOUT THE CHANGES TO THE HUMAN BODY IN BOYS AND GIRLS DURING PUBERTY.

First you will need to watch the two videos. Feel free to ask your adults any questions you may have.

Videos:

You need to highlight the key scientific vocabulary and present your information in an informative leaflet/ poster. Remember to use an accurate drawing and ensure you use the correct terms for each anatomical part.

Key Vocabulary:

puberty	reproduction	genitals	penis	testicles	sperm
pubic hair	body hair	underarm hair	facial hair	larynx	voice breaking
grow	shape	perspiration	hygiene	spots	mood

Challenge 1 – Draw and label a simple diagram on the anatomy of a boy/girl

Challenge 2 – Present information in a table, poster or written form

Challenge 3 – Create an information poster/leaflet for a specific location e.g. doctors office
