

MUSICAL INSTRUMENTS

YOUR TASK THIS WEEK IS TO CREATE A MUSICAL INSTRUMENT OUT OF HOUSEHOLD ITEMS.

This could be a GUITAR out of a tissue box and elastic bands or MARACCAS out of a balloon and rice. It's completely up to you.

We'd like to see your design well thought out and materials carefully considered and some photos of the building process. I'd suggest starting with three options and then narrowing it down as you start hunting for the materials.
