Computers are bad for you

1. In the caption, the word 'are' is written in italics. Then, in the first paragraph 'could' is written in the same way twice. Why is this?

2. Many of the health problems associated with using computers are due to **'prolonged usage'**. What does this mean?

3. What impression do you get of the person suffering from **computeritus**?

Impression	Evidence

4. What is the difference between the two diagrams/ illustrations given?

5. Find and copy a word that is similar in meaning to **torture.**

6. Using the whole text, analyse how the writer entertains the reader.
   Comment on:
   - The aspects covered
   - The style, tone and language used
   - The way the addition is related to an illness
