

EASTER COMPREHENSION

So the little rabbit found the perfect place to make his baskets in a shadow-filled wood nearby. Only a rabbit could find the entrance.

The rabbit set up one room for making chocolate eggs, one room for coloring eggs, and one room for weaving baskets. The little rabbit's friends came to help him.

Now every year on Easter morning, when the sky is blue and church bells ring and the world seems new, the Easter Bunny delivers his baskets.
