## Challenge 3

1

Read the passage below. Underline any words or phrases that give the idea that the town was busy.

Crowds packed the streets. There were tourists everywhere. Every shop was crowded and there was barely space for anyone to fit through the doors. Visitors meandered, slowly moving across the square. They added to the volume of people in the streets and created a human traffic jam. There was no shelter from the sun today. Every inch of shade was occupied.
