

Race times

Solve problems involving time

Look at the results board.

To qualify for the finals, each swimmer must finish the race in under one minute.

- Write the name and the number of seconds for each finalist.
- Write the names and times in minutes and seconds of the non-qualifiers.

Name	Seconds
Kevin	63
Mandy	57
Jacqui	53
Dougie	71
Imran	48
Lynn	66

Cross country results

Name	Minutes
Asif	110
Brian	132
Chris	103
Darren	116
Emma	124
Frank	115
Greg	109
Hannah	121

- Who won the cross-country race?
 - Who came second?
 - How much faster was Greg than Emma?
- Copy the results table. Make a third column and write each competitor's time in hours and minutes.

Example

Asif 110 minutes = 1 hour 50 minutes

- The race began at 10:30. Write the time which the digital finishing clock showed for each competitor.

Example

Asif 12:20

As a group, set up your own time trials, for example, tying / untying shoelaces 10 times or looking up a word in a dictionary. Record your results in a table.

You need:

- stopwatch
