

Name: _____ Date: _____

Baking fractions

Recognise mixed numbers and improper fractions and convert from one form to the other

I am having a party and I want to bake four chocolate fudge cakes for it.

The ingredients for one chocolate fudge cake are:

$\frac{1}{2}$ pint of milk

$\frac{1}{3}$ of a bag of flour

$\frac{3}{5}$ of a bag of sugar

$\frac{1}{8}$ of a jar of chocolate spread

$\frac{7}{8}$ of a block of butter

1 Work out the total quantity of each ingredient I will need. Write them as improper fractions.

2 Now write the total quantity of each ingredient I will need as a mixed number.

3 Write a shopping list for me to take to the supermarket. Remember I can only buy whole items!
