

BABOON ON THE MOON ANIMATION

Your task this week is to create a stop frame animation of a day in the life of The Baboon on the Moon.

Use the English text to design your Baboon on the Moon character and set, think about colour/ material/ size and then create your character using materials in your house or garden. Create a storyboard (using the template) of what will happen in your stop frame animation. What does he see? How does he feel? How can you demonstrate this?

You then need to use the stop-frame guide to create your own stop-frame animation, acting out your storyboard! This can be done on a phone, iPad or camera and then needs to be put together in a sequence to create a moving image!
