- A diverse array of assessment techniques to effectively demonstrate skills in your environment

‘Learners consistently received outstanding support from the trainer, assessors and mentors.’ – NCFE External Quality Assurance Report 2025

“What was great about the course is that it worked alongside learners’ job role, so they were able to use their experiences in their job for the Level 3 as part of their evidence. That worked beautifully for both school and for the members of staff who were training with their Level 3.”
